Erection of stable buildings and formation of hardstanding (retrospective) Associated landscape works including planting of native hedges and removal of hardstanding (Retrospective):

Members **RESOLVED** to object to this application:

Originally established in 2004, this site has changed ownership several times. Despite repeated applications, planning permission has consistently been refused.

Objections raised by neighbouring residents remain strong, with concerns acknowledged during committee discussions. While the National Planning Policy Framework (NPPF) highlights the need for traveller sites, this location presents clear difficulties.

The site lies in a rural setting, approximately two miles from Pulborough's centre, and in close proximity to two listed buildings. The existing road infrastructure is inadequate to accommodate the additional traffic that would result from two three-bedroom caravans and associated vehicles.

In light of these issues, the site is considered unsuitable for development. Concerns around overdevelopment, harm to the rural landscape, and the incompatibility of expansion at this location underpin the strong objections to the proposal.

Should officers be minded to approve this application, Members request that it be referred to the HDC Planning Committee.

- **DC/25/1392 - Nutbourne Place Farm, Nutbourne Lane, Nutbourne** - Variation of Condition 1 and 11 of previously approved application DC/24/1506 (Replacement of existing nursery building and erection of dwellinghouse and associated staff facilities, ground mounted solar panels, upgrading of glasshouses to make them water and energy efficient and biodiversity enhancements) Relating to the external wall materials:

Members **RESOLVED** to support this application.

- **S106/25/00016 - St Crispins, Church, Church Place, Pulborough** - Application to discharge to the requirements of Schedule 4 of the S.106 agreement accompanying ref: DC/23/1361 in respect of the purchase water neutrality credits.

OBJECTION Members asked that this application be delayed on the basis of needing an expert opinion. There is nothing sufficient in place to demonstrate or ensure enforcement of the offset water neutrality. The location of the farm where the water has been offset is quite a distance away from Pulborough; how this will be enforced has not been demonstrated.
